

# LUIS VELITO

## SUMMARY

FullStack Developer with 14 years of experience and Mobile Hybrid Developer. He has worked in institutions such as UNICEF Peru, development companies, advertising, banks and Startups. In his free time, he likes to research and look for new technologies and forms of expression in design and art.

Skilled in Angular, React, Nodejs, Express, PHP, HTML, UI and UX and a bit of Java. Specifically, on the frontend he has worked with CSS, HTML, Angular, Polymer, jQuery, JavaScript, Typescript and nativeScript for hybrid development. On the backend, he has worked with PHP, SQL, Wordpress, NodeJS and Express.

Regarding test automation, Luis has done unit testing with Mocha and Jasmine.

He specializes in development, construction and UX review of websites, development of one-page applications, site layout and maintenance and support.
